Raul,

I look forward to your submission, which is what the process envisages. Please note, though, that the report was that of the three Companies, not that of the Consortium, as there was no consensus.

I remain of the view that, while we can discuss with the Authority a realistically feasible date for the implementation of LNP, it would not be appropriate to delay the RFP process itself, which is what your proposal would have entailed.

Regards

Frans

Frans,

You have taken a unilateral decision to include in the report only certain aspects of Digicel's submissions and remove others. More importantly is that Digicel was not given the opportunity to review this letter prior to it been sent, yet information provided by Digicel has been included in it. While I can appreciate the fact that you were not in agreement to provide the additional 1 week to review the Business Rules, Digicel should have been given the opportunity to properly review the letter to ensure that the report accurately reflected the views of all parties.

Digicel would like to recommend that any future correspondences from the consortium be sent to all members in order to ensure that the views and opinions of each member is given the same level of priority and consideration.

Please note that Digicel will be sending a separate report which includes all the suggested changes and amendments to the report.

Regards
