

30 June 2011

Mr. David Archbold, Managing Director  
Information & Communications Technology Authority  
PO Box 25002  
Grand Cayman KY1-1104

Dear Mr. Archbold,

Re: Local Number Portability – Extension to Implementation Deadline

WestTel, trading as Logic (“Logic”) has been an active participant in the LNP Consortium since inception. The lack of progress by the Consortium should not be construed as unwillingness by Logic to implement LNP by the July 1<sup>st</sup>, 2011 deadline. Logic has invested significant capital and human resource into modifying and upgrading telephone and billing systems in order to support LNP. Logic completed all internal and CRD testing in late May and has been ready to test with external carriers since June 10<sup>th</sup>, 2011. Logic has notified LIME, on several occasions, of our desire to begin LNP testing. To date, we have had no response to our requests.

Logic has done everything possible to implement LNP before the July 1<sup>st</sup>, 2011 deadline. Should the ICTA wish to verify Logic’s current state of LNP readiness, we would be pleased to provide details of the LNP project and accommodate a site inspection.

Sincerely,

A handwritten signature in black ink, appearing to read "M Edenholm", with a long horizontal line extending to the right.

Michael Edenholm
