Confidentiality Claim

9. As noted above, this filing is submitted in complete confidence pursuant to paragraph 6.a of Annex 5 of C&W's Licence. Once interim approval is granted by the Authority, C&W requests confidential treatment of some of the information included in this letter. Further to regulation 3(a) of the *Information and Communication Technology Authority (Confidentiality) Regulations, 2003*, the customer-specific information included above is commercial information that is treated consistently in a confidential manner by C&W, and is not otherwise publicly available. Disclosure of this information would give C&W's competitors specific and detailed information about the take up of C&W's services, which would allow them to design more effective marketing and pricing strategies and more effectively compete against C&W, to the specific detriment to C&W. As noted above, a redacted version of this letter will be made available for the public record.
